Subject: repeaal senate bill 123..

I favor this bill ..to look thru the past records you will find the turn-around rate ..prison to street to prison..is bad enough to say time to repeal.. you just create more cost the secound or third time around the system..you want to give them fresh air...put out working with farmers planting and harvesting t hat will give air and a learning ,,,to turn them to the streets with no nothing sends them back to the same situation they came from..bang bang and back to jail...are they really ready for the streets ????
